

Plus und Minus im Zahlenraum bis 20

The page features several diagrams for arithmetic training, each with a central number in a box and arrows pointing to other boxes or empty ovals, representing addition and subtraction.

Diagram 1 (Top Right): A central box contains the number 16. An arrow points up to a box with 17, and an arrow points down to a box with 12. From the 17 box, an arrow points right to a box with 16. From the 12 box, an arrow points left to a box with 16. Each of these four arrows has an empty oval next to it for an answer.

Diagram 2 (Middle Left): A central box contains the number 11. An arrow points left to an empty box, with an oval containing -7 next to it. An arrow points down to a box with 11, with an oval containing +1 next to it. From the empty box on the left, an arrow points up to another empty box, with an oval containing +13 next to it. From the box with 11 at the bottom, an arrow points left to another empty box, with an oval containing -7 next to it.

Diagram 3 (Bottom Right): A central box contains the number 11. An arrow points up to a box with 17, and an arrow points down to a box with 15. From the 17 box, an arrow points right to a box with 15. From the 15 box, an arrow points left to a box with 8. Each of these four arrows has an empty oval next to it for an answer.
